

ColorMatcher DCML-425

COLOR MATCHING LUMINAIRES

*Multi-Source Overhead Luminaire
For Large Sample Color Evaluation*

Datacolor® ColorMatcher light booths deliver the features you need to evaluate and communicate color with absolute confidence.

Four light sources provide a complete tool for visual color assessment, comparison of color variation, and detection of metamerism (visual color change when samples are viewed under different light sources). The optically neutral prismatic diffuser ensures even illumination throughout the viewing area. Up to 8 units can be linked together for increased width.

All Datacolor ColorMatcher booths are supplied with a certificate of product conformance to ASTM D1729-96 (NIST traceable).

DCML-425 ...Four Light Sources

- 4 Light Sources
 - Daylight (D50, D65, or D75)
 - Cool White Fluorescent or TL84
